

September 2006 Newsletter

It's Showtime!

It's that time again. The leaves are changing color, the air is brisk in the morning and it is time for PackExpo. Starview is excited about bringing new machines and innovation to the PackExpo this year.

Look for us in the North Hall - Booth #N-3619

We will be demonstrating for the first time the **New PHS3-1418 Three Station Rotary Clamshell and Blister Sealing Machine**. The machine will be producing two-piece sealed clamshells containing an informative CD-ROM. Two piece clamshells and insert cards provided by **Rohrer Corporation**.

Starview's **PHS8A-1418 Hot/Cold Plastic-to-Plastic Rotary Clamshell and Blister Sealing Machine** will be producing sealed clamshell packages at high output speeds. Clamshell fronts, insert cards and clamshell backs will be fed from magazines. Finished packages are unloaded from the machine automatically. Clamshells and insert cards provided by **Rohrer Corporation**.

New for PackExpo 2006 the rotary tables on the **ERB6-1418 and FAB8-1418 Rotary Blister Sealing Machines** feature our unobstructed table design for safer operation and a cleaner machine appearance.

The **ERB6-1418** will be producing the latest innovation in environmentally friendly "Club Packages". This will be a front card of SBS laminated to a white micro flute corrugated and a SBS back card provided by **Cardpak, Inc.** The trapped PVC blister has been provided by **Blisterpak, Inc.**

The **FAB8-1418** will be producing a face seal blister package. Blisters provided by **Blisterpak, Inc.** with cards from **Cincinnati Printers**.

We will have North American built **Olympus Vac-1216 and Perseus Vac-1015 Machines** operating. We are running the demonstrations with random printed film and CPET food trays containing food packaging machinery CD-ROMs. Trays are provided by **Gage Industries, Inc.** with film from **Rollprint Packaging Products, Inc.**

Starview's **MS/PH1-1822 Single Shuttle Type Medical Package Sealer with Controls for Process validation** is an all new design for PackExpo 2006. We have redesigned the structure to accommodate the new sealing press having 10,000 lbs. of sealing pressure. We have redesigned the stainless steel housing to be more streamlined. We will be demonstrating printed Tyvek lidstock sealed to a PET medical tray. Medical trays being run are from **Blisterpak, Inc.** with printed Tyvek lidstock from **Ancor Flexibles-Healthcare**.

Skin Packaging will be showcased this year with our model **SP-1824 Impulse Heating Skin Packaging Machine** including the Three Stage Vacuum Option and **RP28-2 Roller Die Cutter** with the soft-start feature and both powered rollers driven. We will produce packages containing a brand new CD-ROM created with the assistance of **DuPont Company** that includes new educational material about Skin Packaging. These packages will be produced with film extruded from Surlyn® resin by **Flex-O-Glass, Inc.** and SBS printed skin cards from **Andex, Inc.**

Surlyn® is a registered trademark of the DuPont Company

Visit our European Partner **O.M.G. Srl** in Booth #E-7423

For the first time at PackExpo our European partner will be displaying the Thermoforming Machines we tool and distribute in North America. There will be an operating vacuum former in the booth as well as video presentations of the latest new technology in high-speed inline pressure formers being offered.

Mark your show plan now!

Don't miss this opportunity to see our machines first hand and meet with our knowledgeable sales staff. Bring your potential customers to experience the Starview difference.

Let Starview assist your customers with machines designed to make the total manufacturing process more effective. Contact one of our sales staff for packaging solutions to help your customers reduce cost and stay competitive.
